

## Holy Trinity Catholic Clinic - Iree - Osun State, Nigeria

The Daughters of the Holy Spirit came to Iree in response to the invitation from late Mr. Iwaloye Oyefade of blessed memory, in 2009. Holy Trinity Catholic Clinic was opened with the blessing of the site by Rev Fathers Lawrence Omowumi and Cyril Oni; Sr Helena Ugorji DHS, Vice Provincial; a few parishioners of St Mary's Catholic Church, Iree; and the chiefs and representatives of Iree community. The Daughters of the Holy Spirit work with a dedicated staff to provide quality health care for the people of Iree and its environs.

The services we render are: - Good ante-natal care. - Laboratory services. - Treatment of ailments & illnesses of all kinds. - Ultrasound. - Natural family planning. - Special eye clinic & ophthalmic services. - Health education and preventive care. - Home base care for the sick and aged.

The eye care services began with a visiting optometrist once a week. Gradually other people with eye problems began to avail themselves of our regular services, and the clinic continues to render its holistic care to the people of Iree and others in six villages. Through *"our human gestures, apparently without significance"*, we continue to touch people's lives positively by our presence and care, especially the abandoned sick, aged and those sufferings from terminal diseases, recognizing in all the face of the risen Christ.

*Sr. Esther Kolawole, DHS*  
*Sister in Charge of Holy Trinity Clinic.*
